WORK EXPERIENCE

Android Developer Intern
HARMAN INTERNATIONAL | Bangalore

February 2026 - Current

- Added and maintained Unit Tests (JUnit, Mockito) for Android-based automotive applications, improving code reliability and achieving high code and branch coverage.
- Contributed to Human Machine Interface (HMI) development for automotive infotainment systems, enhancing interaction flow and overall usability.
- Updated and optimized UI layouts for a new 15-inch automotive display, ensuring proper scaling, responsiveness, and compatibility across different screen densities and hardware configurations.
- Implemented dynamic Dark and Light themes and refactored UI components to support theming, configuration changes, and consistent rendering across devices while maintaining performance.

Android Developer Intern
PADAAMS INNOVATIVE TECHNOLOGIES PVT LTD | Remote

August 2025 - February 2026

- Built EduAI, an Android AI tutoring app using Kotlin, Jetpack Compose, and MVVM, delivering personalized NCERT aligned learning with Groq LLaMA-4 integration for real-time concept explanations.
- Implemented interactive Canvas-based concept maps with zoom, pan, and drag gestures, enabling visual knowledge mapping that improved comprehension and reduced learning time.
- Integrated multi-language voice support (STT/TTS) in English, Hindi, Kannada, Telugu with animated feedback for accessible, inclusive learning.
- Implemented secure authentication using Google Credential Manager, with OkHttp, Coroutines, and StateFlow for reactive networking and stable session management.

SKILLS

Languages	Java, Kotlin, Python
Tools/Frameworks	Spring boot, Jetpack Compose, Google Cloud, Google Firebase
Databases	MongoDB, Firebase, MySQL
Technologies	Git & Github, Android Studio, Postman
Core Concept	Data Structure and Algorithm, API Development

PROJECT

Expense Tracker | Android Studio, Java, Firebase

- Created financial management Android app handling 2,000+ monthly transactions across 500+ active users with real-time data synchronization using Firebase Firestore
- Implemented interactive data visualizations using MPAndroidChart library for monthly expense summaries, category breakdowns, and trend analysis dashboards
- Implemented interactive data visualizations using MPAndroidChart library for monthly expense summaries, category breakdowns, and trend analysis dashboards
- Integrated Firebase Authentication and Cloud Firestore for secure user data storage with offline capability and automatic sync

EDUCATION

Nov 2022 - April 2026

Bachelor of Science in Computer Science
Sri Venkateswara College of Engineering and Technology Andhra Pradesh, India

- GPA: 7.5, Computer Science Engineering

CERTIFICATES

Java Certification – Certification in Java by L&T EduTech
LeetCode - 450+ problem solves
